## NOTICE GIVEN POWER USERS

Notice of Rearranged Shut Down  
of Electric Power At Tonopah on  
July 4th.

There will be an interruption of light and power service for a period of two hours, from 7 a. m. to 9 a. m. in order to make necessary repairs at substation. At Divide Mining District there will be an interruption of light and power service from 7 a. m. July 4th until 7 p. m. July 5th, in order to change voltage of distributing lines from 6600 to 11,000 volts, which is necessary in order to provide better service in the future.

This change will involve the use of a separate bank of three 500 k. w. high tension transformers, installed at the Tonopah substation of the power company and will also necessitate the changing of connections on primary side of all transformers now installed in the Divide Mining District, which change will be made by the power company with no expense to the power consumers.

The primary fuses on all transformers installed in the Divide District will be pulled by the power company, thereby disconnecting all electrical apparatus from the distributing system. The necessary changes will then be made in the wiring of the transformers and each plant tested out by the power company with the 11,000-volt current before turning same back to the consumer for operation.

The consumers are hereby cautioned against replacing these primary fuses until this change has been made and definite advice obtained from the engineers doing this work.

THE NEVADA-CALIF. POWER CO.  
By F. H. Mechling, Dist. Mgr.

When women seek to say something pleasant about a homely woman they say she has expressive eyes.

Give a few minutes every day to silent meditation and then perhaps you won't talk so much.

Nobody seems to sow so many of them as the man who sows his wild oats late.

If you've never been tempted you don't know what you've missed.

## Brazil Regaining Its Old Time Business

(Correspondence Associated Press) —Business in Brazil, which had been stagnated since the first of October, 1918—a month before the signature of the armistice—has, since the first of April, shown marked indications of an upward trend and a well manifested optimism has taken the place among business men here interested in trade with the United States, of the forebodings which many of them expressed one or two months ago. Brazilian commerce, both domestic and foreign, has just weathered one of the most severe storms in its history and the very few business failures which resulted was considered remarkable by both local and foreign business men. The crisis was due to a number of calamities which followed one another in rapid succession. The freezing of about 60 per cent of the mature coffee trees was the first, followed closely by the appointment of a government food commission which was obliged to arbitrarily fix prices upon certain raw materials for industry—notably cotton. The textile industry was hard hit by this action and the loss of confidence among the distributors of their product.

Early in October the influenza epidemic closed mills and paralyzed trade and this was followed by the signature of the armistice, with a general anticipation of a drop in prices in all staple commodities. Shortly after the close of hostilities came a deluge of deliveries on orders placed in the United States as much as a year before and the wholesale cancellations which resulted were due to the fact that the Brazilian merchant had to choose between cancellation or extension and bankruptcy. He chose the former in most cases. The large stocks which accumulated through this period of stagnation are now being worked off and buyers are again beginning to secure quotations from abroad.

### CHRISTIAN SCIENCE NOTICE

The Wednesday evening services of the Christian Science Society will be held at 8 o'clock instead of 7:30, during the warm weather.

Where did you get the idea that your friends are as much interested in your business as you are?

It is comforting to know that "the other woman" is more often seen on the stage than anywhere else.

### STATE OF NEVADA GETS 10,000 GRENADES

Nevada will receive 10,000 paid American defensive grenades from which the charges have been withdrawn and a consignment of 10,000, thus making unique and desirable savings banks for school children according to word advice from the treasury department. Fred L. White, state war savings director.

"These grenades," commented Mr. White, "represents America's improvement over the British Mills bomb. They are real grenades, of which 5,000,000 were ready for shipment when the armistice was signed. They were first ordered sold for junk, but the treasury department heads, realizing their immense souvenir and sentimental value, decided instead to make them over into savings banks for American school children.

Each Nevada boy or girl who bought with money saved or earned during the summer vacation will be entitled to receive one of these banks free of charge. The teachers in all cases will judge between the pupils and the banks will be allotted according to their merit either to state headquarters or to county chairmen.
